

RUMDEL CONSTRUCTION HOLDINGS (PTY) LTD

SCOPE OF SERVICES

With its wide range of experience in most civil engineering disciplines, Rumdel Construction is able to under take the full spectrum of civil engineering contracts.

These include:

- Roads and Earthworks
- Concrete structures incl. bridges
- Roadworks
- Infrastructure projects
- Concrete Rehabilitation

Highly experienced management and sound business practices ensure projects are completed to the satisfaction of our clients.

Drawing on the expertise of its highly trained and motivated engineering staff, the most demanding projects are successfully and efficiently completed.

Rumdel Construction has had long and varied experience in all types of civil engineering projects throughout Southern Africa and neighbouring African countries.

Rumdel Construction realises that continued success is dependent on providing its clients with a quality product, on time and within the agreed budget.

To achieve this goal, Rumdel Construction embarked on the implementation of a formal quality management system on all our contracts. ISO 9001:2000 certification was achieved in December 2004. Our current ISO Certificate is valid until 2010.

Rumdel Construction has a CIDB grading of 9CE and is thus not restricted in any way to the size of contracts it can undertake. Registration number: 166612

Rumdel Construction is an equal opportunity employer with all committed employees being given the opportunity to develop themselves further.

Rumdel Construction is proud to announce that it is fully BEE compliant, and is a BBBEE Scorecard Level 8 contributor.

We ensure that only the highest Health and Safety standards are being upheld on all our construction sites.

The Company boasts a 5 Star Health and Safety grading by the Master Builders Association of South Africa.
